INCARA

Let a gentle glow of elegance transform your world into a canvas of refined beauty. Let every surface shimmer with a quiet brilliance that elevates your space beyond the ordinary. We introduce to you Collection **Incara** – a true expression of sophistication, where graceful marble veins and delicately radiant tones come together to create an atmosphere of understated opulence. Incara embodies the perfect harmony of strength and style. Its luminous surface enhances depth and clarity, bringing a sense of openness and richness to every space. From luxurious residences to distinctive retail environments and iconic architectural spaces, Incara transforms every setting into a statement of timeless elegance and enduring beauty.

PORSH FINISH

THE ADVANTAGES OF LARGE SLABS

Porcelain slab tiles represent a refined evolution in modern surfacing, combining advanced technology with timeless design appeal. Unlike conventional small-format tiles, these slabs are large in size, slim in profile, and exceptionally durable in performance. Crafted from a carefully selected blend of natural minerals such as clay, feldspar, quartz, and kaolin, each slab undergoes intense compaction and is fired at ultra-high temperatures. This process creates a surface that is remarkably dense, highly resistant, and virtually non-porous. The result is a sophisticated material that offers superior strength, longevity, and a seamless aesthetic—perfectly suited for contemporary architectural and interior spaces.

Instructions for Manual Installation

SINGLE LAYER METHOD

DOUBLE-LAYER METHOD

COMPRESSING THE TILE

Important

All cutout corners must have a minimum diameter of 1/4". Never leave 90° angles. We recommend radiuses of more than 1/4" when the kitchen the design allows as it makes the countertop firmer.

Cleaning & Maintenance

Our products are non porous (due to their high quality raw materials, stringent production parameters and state of the art technology), hence any dust or deposited waste cannot penetrate the surface.

For most cases only a damp cloth is sufficient for cleaning.

Regular cleaning highlights the aesthetic features of the surface and gives it exceptional shine.

For highly aggressive cleaning caused by some common food and substances follow the table below.

TYPE OF STAIN	CHEMICAL PRODUCT	EXAMPLE
Grease	Alkaline - Solvent	Detergent
Oil	Solvent	Ammonia, Baking Soda
Ink	Oxidant - Solvent	Alcohol, Liquid Bleach, Nail Paint Remover
Rust	Acid	Hydrochloric Acid, Vinegar, Red Harpic
Lime	Acid	Descaling Reagent, Hydro Chloric Acid
Cement	Acid	Hydro Chloric Acid
Wine	Alkaline	Ammonia, Liquid Bleach
Coffee	Alkaline - Solvent	Ammonia, Liquid Bleach
Rubber	Solvent	Alcohol, Thinner
Plaster	Acid	Hydro Chloric Acid
Candle Wax	Solvent	Alcohol, Thinner
Iodine	Oxidant	Liquid Bleach
Blood	Oxidant	Liquid Bleach
Ice Cream	Alkaline	Liquid Bleach

Note: It is recommended that any kind of stain needs to get clean immediately / as soon as possible.
